Email(s): yeboahsimon918@yahoo.com

GitHub Account Profile: <https://github.com/yeboahsimon918>

I am a problem solver with skills in resolving problems with minimal supervision. I also like to explore new and upcoming technologies that contributes to my knowledge, experience and career as a software engineer. When it comes to my technology stack, I am experienced in programming languages such as HTML5, Kotlin, CSS3, JavaScript and C++. I am very proficient in typing and multi-tasking,

I also have extensive experience in graphic design which include designing content for a medium-sized firm. Over the last few years, I have regularly worked on graphic-layout, and printing, which has resulted in the development of over 1000+ graphic design projects which includes logos, brochures, advertisements, infographics etc. that increased client transactions by 25%.

I have strong background in project management, customer relations and excellent communication skills, both oral and written.
